### "I want a blonde Barbie doll with an orange dress"

5 year old Enas said 20 minutes after my trials to break her silence, at Al-Najah Hospital in Nablus. Injured Enas, was brought in with injuries, along with her grandmother. Her mother was transferred to Egypt to be treated there. Enas, like every child in Gaza, can teach us about endurance and strength.. Fighting for life amidst all the pain and death.. that's the steadfastness Gaza instills in our children... **Haneen Saleh - WA employee**

## "Together We Stand For Gaza"

### The future plan to support the rebuilding of Gaza Strip 2014-2017

- **First stage:** Immediate intervention projects till the end of 2014. Projects will focus on humanitarian and emergency needs; including hospital support, support to families, school students, and direct financial aid to poor families.
- **Second stage:** Intermediate intervention projects effective the beginning of 2015 until its end. Projects will focus on rehabilitation of damaged houses, provision of emergency healthcare services, rehabilitation of agricultural sector, support to education, activation of programs for new orphans, addressing the environmental crisis, youth and women empowerment (YES) programs.
- **Third stage:** long term projects effective the beginning of 2016 and on. Projects will focus on provision of support to agriculture, sponsorship of orphans and employment of men and women.
